**Manor House Stables announce NAF Racing as their Supplement Partner for a four-year-deal running to Spring of 2027**

As part of exciting developments at Manor House Stables in 2023, NAF Racing have further partnered with the yard to become our Official Supplement Partner. Signing on a four-year-deal through to the spring of 2027, both parties are delighted to continue the collaborative relationship.

With the horses at the yard trained by Classics winning trainer, Hugo Palmer, the sights are set at Manor House Stables to make the yard the most successful flat training enterprise in the country, a vision based around innovative and fresh approaches to challenges – an approach shared by NAF.

The NAF Racing range is a range of specifically targeting products, designed to combat the challenges faced by today's racehorses. With a dedicated and experienced team working alongside Manor House Stables collectively, we're able to ensure that every horse's requirements are fulfilled, whether by supplementation or application. The level of detail from both parties strengthens the alignment and gives the horses what they need to be at their best.

Commenting on the partnership, Michael Owen (Director and Owner of Manor House Stables) said: "We are thrilled to continue the relationship with NAF Racing on a long-term deal which has seen such a huge benefit to the team and horses over the past years. As a former elite sportsman, I am fully aware of the fine margins that can be the difference between success and failure, its important that we get the balance right for the horses too."

“It goes without saying that we are hugely grateful to the team at NAF for their ongoing support and expertise, they are leaders in the field and we look forwards to successful partnership, both on and off the track.

Sammy Martin, NAF Head of Racing, added: “We have been working closely with the team at Manor House Stables since Spring 2021 and the collaborative approach to the relationship has seen us be able to play a key part in the many successes that have been achieved in that time.

“The announcement of our continued alignment is testament to how we have been working together over the years and this has always been done with the health of each and every horse at the front of our minds. We consider each horse individually and ensure that the products are chosen based on their requirements. We are excited to see how this partnership continues to develop over the next four years.”
